Allies Bring Pressure to Bear on Greece.

ACTION HITS COAL SUPPLY

Reports Regarding Fighting in the Balkans Are Confusing—Artillery Activity on the Western Front Indicates One Side or the Other Is Planning an Offensive Movement.

London, Nov. 24.—Instead of declaring a general blockade of the Greek ports the allies have, according to a statement issued by the British foreign office, withdrawn, or threatened to withdraw, the special privileges which Greek commerce has enjoyed since the outbreak of the war.

What these special privileges are is not specifically stated, but as an example Greece has been allowed to draw her supplies of coal from Welsh collieries. To do this Greek merchants required special permits, as the export of coal from the British Isles is allowed only under a special license.

There are many other commodities, the export of which is permitted only to certain countries. Invariably when orders have been issued against the export of such commodities Greece has been among the countries excepted. Now, unless she concedes the demands made by the allies for assurances for the safety of their troops in the Balkans, Greece will be struck off the list of countries which have these privileges.

While this less vigorous attitude on the part of the allied governments has caused some dissatisfaction in quarters where strong measures are advocated it has eased the situation and the belief now prevails that Greece, having been impressed by Lord Kitchener's visit and the threat to her commerce, will concede the demands.

Balkan Reports Confusing.

Of the fighting in the Balkans the reports are more confusing than ever. The German accounts still claim progress for the Austro-German and Bulgarian troops and recount the capture of thousands of prisoners and many guns from the Serbians. But from the towns mentioned their advance appears very slow.

It may be, as reported from Italian sources, that the campaign is waiting on a change in the disposition of the armies, so that the Germans may be the first to enter Monastir. This would avoid the trouble likely to arise through Greek objection to Bulgarian occupation of the city, which is so near their border.

Dispatches from Athens, however, state that the delay is due to the fact that the Serbians have defeated the Bulgarians, who were advancing on the town, and that the Serbians have recaptured their front on the Velez-Prelip line. Perhaps the reason for the slowness of the invaders' progress arises from difficulties of transport.

In the west artillery is still active, and the arrival of clear, cool weather may make possible an offensive movement by one side or the other. The Germans are reported to have brought large reinforcements to Flanders, but whether for offensive or defensive purposes time alone will tell.

COCHIN AGAIN AT ATHENS

French Minister to Have Another Conference With Greek King.

Athens, Nov. 24.—Another conference has been arranged between King Constantine and Denys Cochin, special French emissary in Greece.

Cochin has personally looked over the military situation at Saloniki, conferred with the Serb war minister, and is armed with fresh arguments which he hopes will convince King Constantine he cannot resist the allies' demands.

It has been made clear to the Greek government again that the entente powers do not insist upon armed aid from Greece in their Balkan campaign, but that they require assurances of a hands off policy by the Greeks no matter how the Balkan fighting may develop.

IS AUTHORIZED BY BRITISH

America May Send Certain Goods to Countries of Allies.

Boston, Nov. 24.—Shipment of wool, yarns, tops and wool waste to Russia, France, Italy and Japan from this country has been authorized by the British board of trade in a communication to the Textile alliance, incorporated, of this city.

The stipulation is made that goods be consigned to the respective governments and that shipments be sent by way of Great Britain or its colonies.

THEODORE BURTON.

Lincoln, Neb., Nov. 24.—Thirty-six Republican voters of the state filed a petition with the secretary of state asking that the name of former Senator Theodore Burton of Ohio be placed on the Nebraska primary ballot as a candidate for the Republican nomination for president.

WITNESSES ACCUSE GERMAN ATTACHE

New York, Nov. 24.—According to witnesses who testified in the federal court here Captain K. Boy-Ed, German naval attache, with headquarters at the German embassy in Washington, played a leading role in the alleged conspiracy of several Hamburg-American line officials to deceive and defraud the United States by sending neutral relief ships with coal and other supplies to German men-of-war in the Atlantic and Pacific oceans at the beginning of the European war.

One of the witnesses swore that Captain Boy-Ed personally directed the expenditure of approximately \$750,000 which, unsolicited and unexpected, had been deposited to the witness' credit in a New York banking house early in September, 1914.

Of this money, the witness testified, \$250,000 was telegraphed to the Nevada National bank at San Francisco in one lump sum; \$213,000 was paid, in several amounts, to the North German Lloyd steamship line here.

About \$75,000 was paid to the Hamburg-American line here and by cable money order in Hamburg and some of the remainder was still on hand. All of these disbursements, this witness asserted, were made by order of Captain Boy-Ed.

KITCHENER SAYS ARMY IS GROWING RAPIDLY.

Paris, Nov. 24.—Earl Kitchener, the British secretary for war, in conversation with Greek officials, in his recent visit to Athens, is reported to have declared that England will have by next March 4,000,000 soldiers under arms and will be in a position to arm and provision 6,000,000 Russians and that consequently it would show great stupidity to think the war would end otherwise than in complete defeat for Germany.

JOHN REDMOND CONFIDENT

Declares Germany Is Beaten on Western Front.

London, Nov. 24.—"So far as the western front is concerned Germany is beaten," said John Redmond, leader of the Irish Nationalist party, just returned from a visit to the army in France, addressing a recruiting meeting.

"Every day, every hour, she is getting weaker. For every shell she throws at us we throw five.

"There are no pessimists among our men fighting there. From the commander-in-chief down through all the ranks of the army there is a feeling of absolute confidence as to the results of the war."

Mr. Redmond visited the Belgian lines and saw King Albert.

"I told him," said the Irish leader, "that Ireland was determined to stand by the independence of Belgium at any cost. Come weal or woe Ireland would have no peace that does not bring about the rehabilitation of Belgium."

LATEST WAR NEWS

MAKING FAVORABLE PROGRESS

Athens, Nov. 24.—The Greek attitude towards the allied troops in the Balkans was the subject of a discussion between the entente ministers and Greek officials was admitted here today. No definite agreement appears to have been reached but the general impression is that the allies' representatives are making favorable progress.

MILLION ITALIANS KILLED

Vienna, Nov. 24.—A million Italians have been killed and wounded in the fighting with the Austrians according to an official war office bulletin. The loss includes Italians who went to the front since the war began. The battle for Goritz continues with undiminished violence. Six hundred buildings have been damaged by Italian fire.

ATTITUDE OF GREECE ASKED

Athens, Nov. 24.—An urgent request for definition as to Greece's attitude toward the allies' operations in the Balkans was handed Premier Skoudoulis by the entente ministers. The note is friendly in tone.

BULGARIANS DEFEATED EVERYWHERE

Paris, Nov. 24.—The Bulgarians have been defeated everywhere in the extreme south of Serbia and are retreating at all points, says a Serb official statement.

FACE TO FACE WITH SERBS

London, Nov. 24.—The Teutonic allies are face to face with the Serbs' main northern army. The capture of Nitrovitza and Pristina is announced officially.

PRISTINA IS OCCUPIED

Athens, Nov. 24.—The Bulgarians have occupied Pristina, it is officially announced.

Ford Charters Vessel to Carry Delegates

New York, Nov. 24.—Henry Ford announced that he had chartered the liner Oskar II as a peace ship to sail from New York on Dec. 4, carrying the American delegates to a peace conference to be held in Europe. Plans for the conference are not very definite, the meeting to be held in some neutral country. Ford is confident of the support of all peace advocates, and the conference will be entirely unofficial.

Ford declared he would try to get the men out of the trenches by Christmas time. His hopes have the support of every mother in one great effort to wipe out the preparedness talk.

Brand Whitlock Back in America

New York, Nov. 24.—Brand Whitlock, minister to Belgium, who spent months in the midst of the European war zone, is back on American soil again. The Holland-American liner Ryndam, with Mr. Whitlock and his wife aboard docked this morning. Minister Whitlock refused to discuss the diplomatic question but asserted that he would return to Belgium on December 28th.

Explosion Wrecks Plant

Denver, Colo., Nov. 24.—Fixe explosions blew the Mountain Motor Fuel company's plant to bits.

British Gave Three Cheers for German

London, Oct. 9 (By Mail).—How war was suspended for 5 minutes while British soldiers in Northern France rescued two wounded Germans from No Man's Land is told in a letter from Sergt. A. E. Berry to friends in London:

"I heard a cry and looking in front of the trench saw a wounded German on the parapet, begging us to bring him in. He had been there from the time of Saturday's charge and it was then dinner time Monday. He was near dead from his wounds. We could not go out to him but one of our soldiers shouted in German asking the enemy if we might bring him in. The Germans agreed to a five minute truce.

"One of our officers and a private carried the poor man in. He cried with joy as they laid him down and he knew he was safe. He was very badly hurt. While carrying this man in they saw another, nearly buried with earth. We brought him in and then we gave three cheers for the Germans, for they had proved that they are not all bad. I can tell you that this incident very nearly brought tears to many a man's eyes there in the trenches.

Flagship Ordered to Polobampo, Mexico

Washington, Nov. 24.—Rear Admiral Winslow and his flagship San Diego have been ordered by the navy department to proceed immediately to Polobampo on the Mexican west coast to protect Americans there who are threatened by Yaqui Indian raiders. The San Diego carries 275 marines who will be landed if necessary to protect the lives and property and will reach the scene of the disorders within six days. The order for sending the San Diego followed vigorous pleas from the American colonists to Representative Mann. No American lives have been lost so far, but the Indians have seized the live stock and grain of the ranchers.

An Engine Strikes Crowded Street Car

Waterloo, Ia., Nov. 24.—Fourteen people were injured, six seriously, when an Illinois Central engine struck a crowded street car on a grade street crossing.

Peace Advocate Urges Conference

Washington, Nov. 24.—Mme. Mikkel Schwimmer, the noted Hungarian peace advocate, called on President Wilson urging him to call a conference of neutral nations to negotiate peace and declared the war weary millions in Europe are beginning to heed the peace urgings of the neutrals.

Missing Man Sought Traced to Aitkin

Belvidere, Ill., Nov. 24.—For more than 5 years relatives here have been seeking Rinard Shawvan, who mysteriously disappeared about 11 years ago. An estate of \$30,000 in which the missing man should share, is held pending the expiration of the 7 years since he was last heard from after which Shawvan may legally be declared dead.

In the country-wide search for Shawvan trace of the missing man was found at Aitkin, Minn., and again at Needles, Calif. Shawvan's parents believe he joined the Mexican revolutionists and died in battle. He always wanted to be a soldier. As a boy he played war and accidentally got two fingers of his left hand shot off.

Piteously Deformed Shall Baby Live?

New York, Nov. 24.—Whether the badly crippled girl baby born last night to Mrs. Joseph E. Roberts will be operated upon or permitted to die will be decided in a conference by the physicians of the Babies Hospital. The child's mother and father are both opposed to the operation and believe the baby so piteously deformed should be allowed to die. The case is almost identical with that of Baby Bollinger. Dr. Julius Goldsmith, however, wants to operate and possibly save the life. The baby's body from the waist down is paralyzed and badly deformed.

Shoots an Attorney Thru Misunderstanding

Fort Worth, Texas, Nov. 24.—H. O. Ledgerwood, an attorney, was shot and killed in his office by J. M. Wiseman, of Dallas, who turned the gun on himself, dying a few minutes later. The shooting resulted from a recent prosecution of Wiseman for the misuse of the mails, and Wiseman misunderstood Ledgerwood's connection with the case.

MME. MELBA.

Prima Donna Cuffs Solicitor for "Clacquers."

Mme. Nellie Melba, prima donna, is not in the market for applause.

It was this that prompted her to cuff and admonish a certain dark young man of foreign extraction at Chicago when he approached her with the proposition that, for a consideration, he would see that she was roundly applauded in her appearances on the stage with the Chicago Grand Opera company.

DEFENSE MAIN TOPIC OF COMING MESSAGE

Washington, Nov. 24.—President Wilson's next annual address to congress, it was learned definitely, will be devoted primarily to a discussion of national defense and the subject of revenues though it will refer to other legislative questions which the president expects congress to act on during the coming session.

The president has not completed the message, to which he has devoted practically all of his time for the last week.

He discussed subjects to be dealt with at the cabinet meeting and unanimity of opinion was reached by the official family as to what should be the general character of the document.

Reason for strengthening the army and navy at this time will be emphasized at length by the president.

"For defense" will be the keynote of his argument and, declaring that the United States has a humanitarian mission of peace in the world, he will insist that under present conditions, when all Europe is at war, the United States must be ready to defend its right to independent and unmolested action.

LANSING HOPES TO SETTLE CASE

Negotiating With Germany on Lusitania Issue.

BERLIN WANTS ARBITRATION

American Officials Are Optimistic, Believing Germany Ultimately Will Come Into Their Way of Viewing the Situation.

Washington, Nov. 24.—A series of conferences between Secretary Lansing and Count von Bernstorff, German ambassador, has failed thus far to bring the United States and Germany near an early settlement of the issues which grew out of the sinking of the Lusitania, with a loss of more than 100 American lives.

It is said by persons in a position to know that the points of view of the two governments still are widely different.

In German circles the belief is expressed that a satisfactory agreement cannot be reached without arbitration.

Officials of the state department are more optimistic, however, the opinion seeming to prevail that ultimately Germany will come into the American way of viewing the situation.

Secretary Lansing and Count von Bernstorff have an agreement not to talk about the subject of their last conference. It is taken for granted in official circles, however, that the Lusitania case was one of the matters discussed.

It is stated on good authority that no offer has been made to indemnify the families of Americans lost in the disaster.

It had been reported the German government offered to pay an indemnity of \$5,000 for each life lost, but it is stated that neither this figure or any other has been named in the conferences.

Regrets Loss of American Lives.

The German government is said to take the position that to agree to pay indemnity would be an admission of wrongdoing and that, while in a humanitarian sense it deeply regrets the loss of any American lives, the Lusitania was torpedoed in reprisal for the establishment of the British blockade order, which the United States itself holds to be illegal.

Germany, however, is willing and anxious to take the whole matter of indemnity to the Hague for arbitration, even though it is known that high German officials believe the award would be in favor of the United States, regarding the structure of the tribunal as one likely to favor neutrals.

As for future assurances regarding the safety of American citizens traveling at sea it is considered by Germany the assurances given in the settlement of the Arabic incident fully covers the situation.

The point of view of the United States government is that the German government must disavow the sinking of the Lusitania and indemnify the families of American citizens lost in the disaster.

The United States is adverse to taking the question of indemnity to The Hague.

GERMANY IS RUSHING SUPPLIES TO TURKEY

Bucharest, Nov. 24.—Huge quantities of military supplies from Germany are now pouring through Bulgaria for the Turks.

Thus far, according to advices from the Bulgarian town of Rustchuk, 1,400 railcars of munitions, artillery and hospital necessities have been landed at Bulgarian Danube ports for transshipment by rail to Constantinople. Included in one shipment were two 42-centimeter guns for the Ottoman defense of the Gallipoli peninsula.

All traffic thus far has been by rail from Germany to Orslava, Hungary, then by boat down the Danube to Northern Bulgarian railway centers and thence by train to the southward. No German statement has been made concerning the condition in which the Orient railway was left by the Serbs, but the delay in reopening it suggests that it must be badly wrecked.

More Foreign Gold Arrives.

New York, Nov. 24.—Two shipments of gold valued at \$15,750,000, which arrived here on board the steamers Lapland and St. Paul, have been landed. The Lapland brought \$7,000,000, while the St. Paul carried \$8,750,000 in gold specie and \$4,900,000 in bullion. Most of the gold was consigned to New York banking houses to pay for war munitions ordered by the British government.

Mrs. Amy J. Bertram Wins Praise—City to Have Visiting Nurse by December 1

The Associated Charities is busily engaged at present in preparing boxes of good things to eat to be distributed for Thanksgiving Day. The school children were requested to bring supplies to the school building, and these were collected, sorted and placed in the boxes. The response was very generous indeed, much more being donated than last year. To Mrs. Amy J. Bertram, who had this work in charge, goes the credit for the handling of this part of our work, and thanks are extended to all those who so generously helped to make the boxes a success.

The Visiting Nurse will be here the first of December. The Associated Charities have secured a nurse who has done quite a lot of district and school nursing and who comes very highly recommended.

Associated Charities workers state that the absence of saloons has made a great difference among the poor of the city, and that as a result less help is being required than formerly. The outlook for the winter is encouraging. Work seems to be plentiful and promises to continue for sometime. Donations of clothing, underwear and overcoats particularly would be very acceptable, and anyone interested may call Mrs. Amy J. Bertram, Tel. 185, who will see that prompt collections are made of any articles which may be donated.

Bowder-Sherlund

Charles N. Sherlund and Miss Arletta Bowder were married at Fargo, N. D., November 22 at the First Methodist church, Rev. J. W. Walters officiating.

The bride was attired in a handsome gown of white satin trimmed with silk overlace. She carried bridal roses. The bridesmaid was Miss Julia Finn, of Duluth, who wore pink silk and carried pink roses. The best man was A. E. Dalrymple of Fargo.

The bride is an accomplished young lady. The bridegroom is a member of the corporation, the Sherlund Co. of Brainerd. They returned home to Brainerd this morning from their wedding trip and are at home to their friends in Flat No. 6 of the Pearce block.

Their many friends in Brainerd and Fargo extend to them best wishes for their continued happiness and prosperity, in which the Dispatch heartily joins.

Thanksgiving Service

St. Paul's Episcopal church will hold a Thanksgiving service at 7:30 o'clock on Thanksgiving evening. Rev. H. G. Stacey will preach on "The Duty of Thanksgiving and the Sin of Ingratitude."

Christmas Sale and Supper

The Ladies Aid society of the Methodist church are planning a Christmas entertainment in the form of a Christmas sale, supper and social event to take place in the parlors of the church on Friday, Dec. 3d. During the afternoon and evening the ladies will have on sale fancy and useful articles suitable for Christmas gifts. At six o'clock there will be served a sumptuous church supper. The remainder of the evening is to be spent in a social way. Friends are requested to plan on spending the evening of Dec. 3d at the Methodist church. The general public is cordially invited.

For Mrs. Anna Wilson

The Ladies Aid society of the Swedish Mission church and friends surprised Mrs. Anna Wilson, who with her daughter, Miss Jennie Wilson, will soon leave for Minneapolis to make their home. The ladies presented Mrs. Wilson with a purse. The afternoon was spent in conversation and music, refreshments being served. Mrs. Wilson and daughter are very estimable people of Brainerd and their many friends will regret to see them leave, hoping they may return again in the future.

For Miss Jennie Wilson

Miss Elsa Peterson entertained at her home, 823 Fifth Avenue Northeast, for Miss Jennie Wilson last evening, thirty-five or more young people being present and enjoying an evening of music and conversation, refreshments being served. Miss Wilson is to leave soon with her mother for Minneapolis where they will make their home and Miss Wilson will attend Minnehaha Academy studying piano.

Fourth Birthday

Marie Lillian Hoffbauer, also known as "Toodles," was surprised on the occasion of her fourth birthday at the home of her parents, Mr. and Mrs. John A. Hoffbauer, 722 So. Broadway, by fourteen of her little playmates. She received many pretty presents. A luncheon was served and the little guests enjoyed themselves to the utmost.

Thanksgiving Donation Day for St. Joseph's Hospital on Thursday, November 25. Contributions in the shape of food, clothing and money will be gratefully received at the hospital.

Crosby Fire Department Receives its First Pulmotor, Great Aid to Revive Drowned Persons

THANKSGIVING VACATION

Where Some of Crosby School Teachers Will Spend Their Vacations —Othe Crosby News

Crosby, Minn., Nov. 24—The schools of Crosby are to have a trained nurse to look after the school children. Plans are to be worked out for a night school.

The Crosby Courier newspaper has been changed from a co-partnership to a corporation capitalized at \$10,000. The first board of directors includes T. S. Maguire, H. L. Nicholson, P. N. Haughton, A. W. Uhl, and G. W. Falstrom.

The ladies of the Catholic Altar society had a large attendance at their annual Thanksgiving supper.

Supt. W. Wearne of Duluth visited the Inland Steel Co. properties.

The Crosby fire department has received its pulmotor, being the first department in central Minnesota so equipped.

Mr. and Mrs. Ben Mizen expect to spend the winter in Duluth. Mr. Mizen being employed on the Mesaba as a geologist.

H. W. Linnemann, of Brainerd, was in the village looking after business at his branch store.

Mrs. Harry Koop and little son visited in Brainerd Wednesday and Thursday.

The dance given by the Naval reserve was attended by 75 couples.

Mrs. A. O. Rabideau is visiting in Duluth.

Mrs. Thomas Wellington is visiting in Taylor, Wis.

H. Ingalls has been confined to his home suffering with rheumatism.

General health conditions in Crosby and Ironton are unusually good for this season of the year, according to Dr. R. J. Sewall, health officer of Crosby. There are practically no contagious diseases with the exception of chicken pox.

Estimates and plans are being made for water mains through Central, Lakeview, Smith's West Park and Keating's additions. Bids will be asked for approximately two miles of six, eight and ten inch mains.

Crosby schools will be closed from Wednesday afternoon until Monday morning and among the teachers who will spend the holidays elsewhere are: M. G. Randolph, St. Paul; Evelyn Chandler, Superior; Helen Bouton, St. Cloud; Eva Miller, Long Prairie; Maude Cullen, Brainerd; Anna Dennie, Little Falls; Mae McCarty, McIntosh; Margaret Sharpless, Fergus Falls; Marie Jensen, St. Cloud; Veronice Furlong, Duluth; H. L. Erickson and A. W. Kirk, St. Cloud.

How Much Iron Can We Make?

Iron furnaces of this country, including all in blast or idle, could, according to the Iron Age, "apparently produce about 40,000,000 tons if they remained in blast a year." This would be 9,000,000 tons above the maximum calendar year output. The Iron Age doubts, however, if all the furnaces could stay in blast a full year, and suggests a figure over 38,000,000 tons as maximum capacity.

Whiskey is shipped in coffins down in Tennessee in order to get into prohibited territory. That was a ruse resorted to in northern Minnesota some years ago in order to get game to the city markets in opposition to the law governing the same, and when it got to that point that one or two corps a day was being shipped from a small railway station the authorities sat up and began to take notice. Investigation showed that partridges, venison and moose meat had been going to the cities regularly via the coffin route. There has never been any charge that whiskey was being introduced into the Indian territory masked as "dead men" but there are records of instances where it has been carried in as "wind" in automobile tires.

It is to be regretted that anything should have occurred that might possibly create a wrong impression in the minds of any of the people of this city regarding the management and usefulness of the Chamber of Commerce, as has the publicity given in outside papers, especially regarding the answer of a club member in a test case brought against him for the collection of dues and which has been made public within the past few days. It is a well known fact that games of chance at cards and gambling took place within the club rooms at times in the past, and it is also as well known a fact that after the organization of the Chamber the games of cyclone and poker were stopped and the room in which these card games were formerly carried on was closed for that purpose, and one principle this club now stands for is the suppression of this very one thing, and it is not of recent origin. When these games were wiped out it was with the knowledge of the membership, but there are a large number of people who were of the opinion and probably some are of the opinion still, that conditions now exist as they did before—which is not so. The suit brought is to test the validity of the contract in the collection of dues and which every member entered into, and was brought about by the failure or refusal of certain members to fulfill their contract in this respect, and the test suit is a result.

The Chamber of Commerce has done more and is doing more for the advancement of the city of Brainerd at the present time than any other agency, it represents the combined influence of the people of Brainerd for the industrial as well as the civic advancement of the city and county and it should receive the hearty support of every citizen who desires to see Brainerd forge ahead and take her place among the industrial centers of the northwest.

WILSON WILL ASK FUNDS

President to Urge That America Contribute to Red Cross.

Washington, Nov. 24.—A Thanksgiving day appeal to the American people to contribute to the Red Cross relief fund for use in Europe probably will be issued by President Wilson. The Red Cross has spent \$1,600,000 abroad since the war began and will need \$1,700,000 the coming year.

It has about \$50,000 available and has been forced to withdraw its units from the battlefields for lack of money.

Smallest Republic Has Declared War

Berlin, Oct. 15.—(By mail)—A Washington cablegram today instructed Ambassador Gerard to take over the diplomatic affairs, documents and property of the tiny Italian republic of San Marino, geographically the smallest republic in the world. The country covers only a few square miles, has but 20,000 inhabitants and possesses guns which cannot be used in target practice because they overshoot the borders in all directions. Nevertheless, San Marino has declared war on Germany and Mr. Gerard is its Berlin representative. The only trouble is that he can't find anything with which to do the representing. As representative in Berlin of England, Japan and other enemies of Germany's, Mr. Gerard has taken over their enormous embassies and voluminous documents. He has tried and tried to find San Marino legation. He can't find a thing. He said he might advise Washington that the legation is mislaid or that, if San Marino ever had a legation or anything else in Berlin, somebody has walked away with it.

BOOSTING FOR BUSINESS

Local Manager, Louis Larson, Doing Energetic Work for the Western Union at Brainerd

Louis Larson, new manager of the Western Union at Brainerd, is working energetically to extend the business of the company in this district. Mr. Larson came from Grand Rapids, Wis., where he established an enviable record as a hustler for business. At Brainerd Mr. Larson has gone through the rural lists, telephone and others that he has secured, and has sent out 500 circular letters to the farmers describing the Western Union night letter service, and calling attention to the convenience the farmers may enjoy by telephoning their messages to Brainerd for transmission from Brainerd over Western Union wires.

Mr. Larson has also canvassed Brainerd for new business. He has stimulated interest in Western Union clocks, the Royal Arcanum lodge having placed three in display windows of stores. Night letters, said Mr. Larson, can be filed in the day time for transmission in the evening, 50 words being sent for the 10 word day rate. The messenger service is also gaining in favor.

New industries in Brainerd, like the gas company, paper and pulp mill and the mines, will do much to increase Western Union business.

The Present Situation

BY ED. L. KEEN

(United Press Staff Correspondent.)

London, Oct. 9 (By Mail)—Organized labor first suggested how to deal with the labor shortage in munitions industries. In November, 1914, the Amalgamated Society of Engineers and four other unions proposed that firms engaged on private work be given government work; firms working short time, transfer surplus labor to busier centers; skilled workmen be brought from Canada and Australia; skilled men who had enlisted be brought back from the trenches.

This then appealed not to the government or to the employers. Six months later, after the spring offensive in Flanders failed through lack of munitions, it was adopted.

Following this exposure of the Empire's grave danger, all the skilled labor unions in the United Kingdom agreed, during the war, to allow unskilled workers to use lathes and other machines, permitted women in munitions work, withdrew opposition to the premium bonus system and agreed not to restrict or hamper the output.

Right after this Lloyd George said the real cause of the munitions shortage was drink. He abandoned this later when he saw that the facts were against him, but much mischief had been done. The British masses are not thick-skinned. Their feelings were hurt. To be called drunkards just after what they had done was discouraging.

Next came the Munitions Act. Early in the year labor suspected that Lloyd George and the government desired industrial conscription. The government had refused to deal with the increased living cost, increased profits, or the claims of labor that the war ought not to be a means of labor exploitation by capital.

The Munitions Act provided prohibition of strikes; government control of certain establishments, now nearly 1,000; guaranteed employers in controlled establishments the average of profits for the last two years plus one-fifth extra, and allowance for capital expenditure; suspended all trade regulations in controlled establishments, and subjected workers to heavy fines for striking, decreasing output, or going to work elsewhere.

Many workers felt that this was a form of slavery. They would have preferred the munitions factories nationalized and the workers responsible in conjunction with the state for discipline and output. There would have been less dissatisfaction had the act been scrupulously observed by employers and sympathetically administered by the government. A few instances:

Armstrong & Whitworth, Openshaw, dismissed 151 Steel Smelters' Union men, refusing them certificates required by the Munitions Act before they could get other work.

At Sheffield a worker asked the local munitions tribunal's permission to take a position closer to where his wife, almost at death's door, resided. Permission was refused. Fourteen Manchester workmen, summoned for contravening the strike clause of the act, proved that the government had not acquainted them with the act's provisions and that their employers were not engaged exclusively upon government work. They were fined.

In defense of the biggest strike since the act went into effect, when 1,500 Thornycroft's shipbuilding yard workers at Southampton downed tools because of the introduction of non-union labor, labor says the employers themselves first violated the act's provision that "due notice shall be given workmen of any change of working conditions desired and opportunity for local consultation with the workmen or their representatives shall be given, if desired." This, they say, was the real cause of the strike.

Leaders of labor in Great Britain contend that the workers still are as wholeheartedly in favor of the war as when it started. But, they say: Exploitation continues; the government's attitude toward increased living cost and increased profits of employers still is unsatisfactory, to labor.

That the administration of the Munitions Act is constantly embittering relations between the government and labor; and that labor feels that its sacrifices in lives, in trade union rights, and material prosperity have far exceeded those of the classes.

Despite these things, labor has now promised to recruit 20,000 men a week, and to try to make it 30,000.

How an Engineer Keeps Well

Railroad engineers are more exposed to catching cold than other workers. E. G. Dunaphant of Monticello, Mo., has run a Frisco engine 25 years and all the medicine he has taken is Foley's Honey and Tar. He writes: "I always keep it in my house and recommend it to all who have a bad cough or cold." H. P. Dunn, druggist.

THANKSGIVING TEXTS

It is a good thing to give thanks unto the Lord.—Psalm xcii, 1.

Enter into his gates with thanksgiving and into his courts with praise; be thankful unto him and bless his name.—Psalm c, 4.

Adorning the Thanksgiving Table

A PRETTILY decorated dining table makes an attractive setting for the Thanksgiving feast. Every year the shops are full of quaint suggestions for the festivity, from miniature representations of the lordly gobbler to the homely but palatable pumpkin. And, best of all, many of these pretty favors and place cards can be made at home with very little trouble.

There is perhaps nothing more effective among these new ideas than the pumpkin centerpiece, or Jack Horner pie, as it is sometimes called. This is really a most deceptive affair, for it looks like a genuine pumpkin, but is really cunningly fashioned from deep yellow tissue paper held in shape by a wire frame or a frame of rather stiff cardboard. The stem and leaves are made of dark green paper. The interior of the pumpkin is hollow and can be filled with small favors for the guests, with ribbons leading from it to each plate.

This table receives an added touch of gaiety from having the edges wreathed with pumpkin vines adorned both with blossoms and miniature fruit. The vines themselves are made of wire wound with a tiny twist of cotton batting and covered with green paper. The small pumpkins are simply balls of cotton on a wire stem covered with yellow crape paper, while the blossoms are of yellow tissue.

Just below the lace trimmed cloth this same table is draped with a roll of turkey paper, which is most effective. This is a white crape paper on which are printed large turkeys in natural colors. It is gathered along the upper edge very slightly and fastened by pinning under the edge of the tablecloth.

The place cards are small turkeys with easel backs that can be made from the little turkeys cut from the paper napkins that are got out for Thanksgiving. These little gobblers should first be mounted on heavy cardboard and then touched up with a little gold paint on the feathers to give them a hand painted effect.

A most amusing turkey centerpiece represents the piece de resistance of the Thanksgiving table as a very sporty bird indeed. He wears a high silk hat, he carries a cane under one arm, or, rather, under one claw, and in his beak is cocked a long black cigar. His feathers are white and brown and his wattle is a brilliant red, and his tail is spread to its greatest extent. But, withal, he is a hollow sham, and his interior can be used as a receptacle for favors or bonbons.

One of these gay birds would certainly create a great deal of merriment at the dinner table.

May we so order our lives that we may ever strive to be at one with God, not only to give but also to live thanks unto God. In this holy frame of mind may we all enter into the spirit of Thanksgiving day.

An Insult.

"What was the trouble between you and that barber?"

"I simply asked him what was the damage. I meant the amount due him, but he took it as a reflection on his shaving ability."—Pittsburgh Post.

Congestion of Freight on the Pennsylvania Railroad.

Altoona, Pa., Nov. 24.—There are now stored in the Hollidaysburg yard and the Petersburg branch of the Pennsylvania railway more than 2,000 carloads of freight consigned to the warring nations of Europe.

Much of the freight is the product of American steel mills. It was necessary to store the freight because there are too few vessels in the foreign trade to transport the goods rapidly enough.

Polk County Saloons Close.

East Grand Forks, Minn., Nov. 24.—Singing and shouting by scores of men marked the closing of East Grand Forks' saloons and the passing of a liquor industry valued at a half million dollars annually, which had been doomed by the voters of Polk county in the option election of May 24 last.

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Bread Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

NEW DIRECTORY

The Minnesota Telephone Company desires to announce the completion of its Automatic Telephone Exchange in the City of Brainerd. A directory is now in the hands of the printer and will be issued to all subscribers on or before December 1st.

Parties wishing their names listed in this issue should communicate with the Company at once. Telephones may be ordered of Mr. A. M. Opsahl, local manager, or at the office of the Company in the Walverman Block. Upon request a solicitor will call upon you.

No other telephone service can be compared with the "Automatic." No other is so swift, accurate and satisfactory. You call the party you want yourself and eliminate the chance for mistakes, misunderstandings and wrong numbers.

Brainerd will now have telephone service of the same kind used in some of the most progressive cities in this and foreign countries.

This Company is entitled to all credit for the recent reduction of telephone rates in your city and likewise for all betterments of service and the courtesy and attention you are now receiving. For this alone we deserve your patronage but for these reasons only we could not expect to retain it. Automatic service will assure us that.

Get in line with progress and order an automatic telephone today.

TEST SUIT BROUGHT TO COLLECT DUES

Secretary Hansing, in an interview, Gives Some Information Regarding the Suit Pending

AGAINST MEMBER ORGANIZATION

Suit to be Prosecuted to Completion as on its Decision Depends the Collection of Other Dues

In an interview with C. E. Hansing, secretary of the Chamber of Commerce this morning, he outlined in a few terse words his attitude toward the case of the Chamber of Commerce versus Wm. Woods for the recovery of unpaid dues. He said:

"The test case which the Finance Committee have started against Mr. Woods is not one to be decided through the columns of the press. It is a case to test the validity of the contract which every member entered into at the time of organization and until this point has been passed upon by the courts, there is nothing further that can be said.

"As regards Mr. Woods' answer citing that gambling is countenanced by the officers and the funds misused, Mr. Woods is hardly in a position to make any charge of this nature inasmuch as he has never attended a meeting to my knowledge nor has he frequented the club rooms since cyclone poker was banished. It was a well known fact that for a long period prior to the organization of the Chamber of Commerce, gambling was carried on, but upon the present organization assuming all holdings of the old commercial club the game of "cyclone" poker, which was the name then applied to the popular game indulged in, was banished from the club rooms and today gambling of any nature is strictly forbidden. Mr. Woods has been in a bitter mood toward the organization, I understand, ever since the enforcement of this rule and further has even made a statement to members that he could not see any reason for continuing the payment of his dues now that the popular past time has been discontinued. Whether his sudden reformation has made him a reformed man or not for me to say, but I do know that our organization is considered an efficient and progressive body accomplishing more tasks than most organizations in towns of the same population. I know also that the men who stand for the bigger things in Brainerd today intend to push this suit to the limit and should the decision result favorably, every member who may be delinquent will be treated in the same manner."

Every member of the organization interested in the welfare and advancement of the community are requested to attend tonight's meeting. Matters of importance will be presented of interest to every member.

Education Makes The Difference

Without a special training, you are just one of the ten million poorly paid. You are doomed to work for long hours and low wages because you can do only the same work as the rest of the ten million. You hold your job just so long as work is plentiful and men are scarce--no longer. You will be just one of the "hands".

The men at the head of departments and at the head of business concerns are the men with a special training. You know this. Trained men are hard to get and hard to hold. They are the independent men.

From business college to stenographer and from stenographer to manager is the history of many of the students of the Little Falls Business College.

TILTS INDIAN LID; ARRESTED

Special to Dispatch:—

Ironton, Minn., Nov. 24—Indian Agents L. W. Carson and J. W. Nelson arrested one Mile Sipoe, an Australian, on the charge of taking liquor into Indian territory. The liquor is reported to have been purchased in Duluth and ordered shipped to Little Falls. The government agent at Duluth notified the Indian agents and they followed the man who received it.

Sipoe is said to have met the train at Little Falls with an automobile, and started for the Indian treaty territory, traveling in a Ford. The Indian agents got an automobile and followed, overtaking their man. It is claimed, two miles north of Ironton. He is said to have had 30 gallons of whiskey.

Sipoe is now in the county jail at Little Falls, awaiting word from the United States district attorney's office at St. Paul, when he will be arraigned on a charge of taking liquor into the Indian territory.

"The Rosary" Brought the Crowds to the Best Theatre—Improvements Made at Theatre

"The Rosary," said Messrs. Price and Levinson, brought to the Best an audience of at least 1,200 last night. A new advertising feature was the chapels, electrically illuminated, calling attention to "The Rosary."

The theatre has had installed large frames placed on the south wall near the sidewalk where announcements will be made and the bills will be illuminated by electric lights, shaded and placed on the top of the frame. The Best is also using all lights of ornamental lamp posts, thus paying the city so much more for current used.

Under the stairway in the northeast corner of the theatre building there has been placed a lavatory, something especially convenient to a family taking children to the show.

Essanay presents "The Outer Edge" in three parts telling what happened down to the depths by the drug habit. A revolver being all that he has left of his fortune, and he has a use planned for it, but instead pawns it to help a woman who is starving, and by so doing wins back his manhood and the love of a good woman. Harvey B. Walthall plays the part of the Doctor, supported by Warda Howard, Sidney Ainsworth, Chas. J. Stine, Jack Meredith and Thos. Cunneford, directed by E. H. Colvert.

At the Best

Tonight at the Best will be seen another of the great Tolstoi plays. Betty Nansen, the great Danish actress, who needs no introduction, is the star of the five-reel Tolstoi success entitled "Anne Karenina," a heart gripping story of a love-starved woman's struggle for happiness. Anna Karenina, the heroine of this remarkable drama, is the wife of a Russian diplomat high in the councils of his country. This man cold, reserved and wholly wrapped up in his duties gives neither time nor attention to his young and beautiful wife, Anna, though she respects her husband and adores her little son yet craves the love which she feels is the right of every woman, and when Count Wronsky, a handsome young cavalry officer, enters her life and offers her the admiration and devotion which are denied her in her home, she eagerly grasps her chance for happiness. The inevitable result follows. Rich and beautiful through she be and of exalted social position, Anna finds that she cannot defy the conventions. She is cast off by her husband and denied a sight of her son. Her former friends desert her; she is an outcast from society where

Betty Nansen, in "Anne Karenina" by Tolstoi, at the Best Theatre Tonight, Nov. 24th

she formerly reigned a queen. At last she even begins to distrust her lover, the man from whom she gave up everything. Wearied by her unequal struggle, and without position or reputation Anna finds this last blow too much to bear and she seeks in death a release from worldly sorrows.

Tomorrow, Thanksgiving day, there will be a special matinee of the sensational photoplay entitled "Scandal," by Lois Weber. Did you ever realize how scandal is started? Well, if not, it would be a great lesson to see its story told in a wonderfully acted play in five reels. This photoplay is daring and sensational but not the kind of daring that would offend. It deals with the truth. Everybody should see this picture as it appeals to all classes. Matinee will start at 3:00 p. m., doors open at 2:30 p. m. Evening two shows, 7:30 p. m. and 9:00 p. m.

On Friday will be offered Jack London's famous play and book in picture form entitled "The Sea Wolf." A masterpiece would hardly do it credit. It is almost supernatural. It is the film that will always live forever, in seven great reels.

According to the past performances and the crowds that have been clamoring for admission, we would advise the people to start early for all these shows at the Best Theatre.

TO DARKEN HAIR
APPLY SAGE TEA

A few applications of Sage Tea and Sulphur brings back its vigor, color, gloss and thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not so bad, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Mining Companies Settle With Minnesota Village.

HIBBING MAYOR WINS FIGHT

While the Differences Regarding Taxes Are Compromised the General Result is Regarded as a Victory for the Village's Chief Executive.

Hibbing, Minn., Nov. 24.—Hibbing's tax war between the mining companies, who refused to pay their taxes, and the village administration, headed by Mayor Victor L. Power, came to an end when the warring factions buried the hatchet and reached an agreement at a mass meeting attended by 2,000 persons at the armory.

Due to the efforts of representative business men the mining officials and village officers were brought together. The terms of the settlement are that the mining companies pay their 1915 taxes in cash; that the levy for the year 1915 be reduced to \$750,000; that the council carry on the general expenses for running the government of the village at \$24,500 a month, exclusive of the purchase of a fire engine, waterworks contract and all pre-existing contracts, and that the proposed bond issue be not carried out.

The issue, which practically left the city bankrupt for seven months and caused the issuance of paper money by the village, has been bitterly fought on both sides.

Hibbing's fighting mayor was victorious in every one of his combats against the steel corporation and he is the center of congratulation from all sides and from different range municipalities, who give him credit for bringing about a victory over the mining companies.

LID PROTECTOR LOSES SUIT

Must Pay \$21,013.50 for Forcibly Entering Woman's Home.

Watertown, S. D., Nov. 24.—His entrance to assist in suppressing illegal liquor sales in his town will cost E. R. Keyes of Henry, a banker and land owner, \$21,013.50, a verdict being returned against him in circuit court when Mrs. Jack Gamble sued Keyes for that sum. Jack Gamble was arrested for selling liquor at his home and later Deputy Sheriff A. C. Rieg and Mr. Keyes forcibly entered the home without a search warrant to seek for liquor.

Mrs. Gamble refused admission, it was alleged, and Keyes broke the lock.

EXHAUST WOLF BOUNTY FUND

No More Payments Will Be Made in Minnesota This Year.

St. Paul, Nov. 24.—Letters sent out by J. A. O. Preus, state auditor, to county auditors announce that the \$10,000 appropriation for paying wolf bounties for the year ending July 31, 1916, is exhausted and no more claims will be paid by the state for the present year. The next \$10,000 appropriation will be available Aug. 16.

All the 5,000 claims before the auditor and those coming in will be referred to the 1917 legislature.

Reports from Roseau county are that there are more wolves there than in any year since 1905.

TO BAR THE DEFECTIVES

Superintendent of Milwaukee Public Schools Has Plan.

Milwaukee, Nov. 24.—Defective children, averaging below 40 per cent in intelligence, will be barred from the Milwaukee public schools if the recommendation made by Superintendent M. C. Potter is carried out.

It is planned to send such children to a school where they can be under the supervision of educators experienced to teach mental defectives, at public expense.

Milwaukee now has a school for exceptional children, but not for defectives.

HOLD UP FARGO STREET CAR

Two Men Board Vehicle, but Are Chased by Crew.

Fargo, N. D., Nov. 24.—Two unmasked men, one waving a revolver, attempted to hold up a Moorhead courthouse street car in the northwestern part of the city, but, becoming frightened, leaped from the car, with the conductor and motorman in pursuit. Chief of Police Malvey made one arrest. The Bandits obtained no money.

REFUSES SLAYER A RETRIAL

New York Court of Appeals Will Not Aid Former Priest.

Albany, N. Y., Nov. 24.—The judgment convicting Hans Schmidt, the former New York priest, of the murder of Anna Amuller, was upheld by the court of appeals. Judge Cardozo wrote the opinion, in which all the judges concurred.

Dead Rulers Receive
Report of Events

(United Press Correspondent)

Kioto, Japan, Nov. 24.—In conclusion of his coronation as Emperor, Yoshihito tomorrow will journey to Ise, to the tomb of Jimmu Tenno, grandchild of the Sun Goddess and founder of the first dynasty nearly 3000 years ago, to tell him that he, Yoshihito, now by divine right rules Japan.

There also the new Emperor will "worship the gods of heaven upon earth," who are of course, his dead ancestors. Within the next 72 hours the Emperor will in person visit the tombs of the last four Emperors, telling each one of the happy conclusion of the coronation ceremonies. This reporting of great events to the dead rulers is very important in the ritual of ancestor worship.

These visits and the attending ceremonies concluded, the coronation events proper will have been completed. The Emperor will return to Tokyo Nov. 28th for a grand review of the army and navy, following which he will be feted by the citizens.

DISCUSS THE ANCONA CASE

Italian Foreign Minister Confers With Ambassador Page.

Rome, Nov. 24.—The Ancona case supposedly was the topic of a long conference between Foreign Minister Sonnino and American Ambassador Page.

All information the Italian government had gathered concerning the disaster was understood to have been placed at the American ambassador's disposal. No statement has been given out, but public opinion inclines more and more to hold Germany accountable for the sinking of the liner, although the submarine which fired the torpedo flew the Austrian flag.

HUNDRED PERSONS PERISH

Drowned When Bridge Over Sicilian River Goes Out.

Rome, Nov. 24.—One hundred persons were drowned by the washing away of a bridge over the Salso river near Licata, Sicily.

Clear, Peachy Skin
Awaits Anyone Who
Drinks Hot Water

Says an inside bath, before breakfast, fast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening, and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.
